

Test Name	Turnaround Time (TAT) *
BIOCHEMISTRY	
Adjusted Calcium	Next working day
Albumin	Next working day
Alpha Feto-protein (AFP)	Next working day
AMH (Anti Mullerian Hormone)	Next working day
Amylase	Next working day
Androstenedione ^	5-7 working days
AST (Aspartate Aminotransferase)	Next working day
Beta-HCG (B-HCG)	Next working day
Bone Profile (Calcium, Phosphate, Albumin, Adjusted Calcium)	Next working day
C Reactive Protein (CRP) / High Sensitivity CRP	Next working day
CA 125	Next working day
CA 15.3	Next working day
CA 19.9	Next working day
Calcium	Next working day
Calcium Profile (ACA,ALB,CA)	Next working day
Calcium Magnesium Profile (CA, ALB, ACA, Magnesium, Phosphate)	Next working day
Calprotectin^	5-7 working days
Carbamazepine^	1-2 working days
Carcinoembryonic Ag (CEA)	Next working day
Chloride	Next working day
Cholesterol Total	Next working day
Cortisol (time must be stated)	Next working day
Creatinine (Enzymatic)	Next working day
Creatine Kinase (CK)	Next working day
Digoxin^	2-3 working days
Drugs of Abuse Profile^ (no chain of custody)	7 working days
eGFR	Next working day
Estradiol (E2)	Next working day
Free T3 (FT3)	Next working day
Gamma-Glutamyl Transferase (GGT)	Next working day
Glucose (2hr PP)	Next working day
Glucose (fasting)	Next working day
Glucose (random)	Next working day
Haemochromatosis^	4-6 Working days
Haematinics Profile (B12, Folate, Ferritin)	Next working day
HbA1c (Glycated Haemoglobin)	Next working day
Iron Studies (Iron, Ferritin, TIBC, Transferrin, Transferrin Saturation)	Next working day
Lactate Dehydrogenase (LDH)	Next working day
LH & FSH	Next working day
Lipid Profile (Fasting) (Cholesterol Total, HDL, LDL,Triglycerides)	Next working day
Lithium	Next working day
Liver Profile (Total Protein, Albumin, Alkaline Phosphatase, Alanine transferase, Bilirubin Total , Gamma-Glutamyl Transferase, Globulin)	Next working day
Magnesium	Next working day
Microalbumin – ACR	Next working day
Non-HDL Cholesterol	Next working day
NT Pro-BNP	Next working day
Phenobarbitone^	2-3 working days
Phenytoin^	2-3 working days
Phosphate	Next working day
Potassium	Next working day
Progesterone	Next working day
Prolactin	Next working day
Protein/Creatinine Ratio - PCR	Next working day
PSA (supply clinical details)	Next working day
QFIT^ Faecal Immunochemical Test	2-3 working days
Renal Profile (Sodium, Chloride, Urea, Creatinine, eGFR)	Next working day
Sex Hormone Binding Globulin	Next working day
Sodium	Next working day
Testosterone	Next working day
Theophylline^	2-3 working days
Thyroid Function (Free T4/TSH)	Next working day
Total Iron-Binding Capacity (TIBC)	Next working day

Total Protein	Next working day
Transferrin	Next working day
Transferrin Saturation	Next working day
Triglycerides	Next working day
Urate (Uric Acid)	Next working day
Urea	Next working day
Urinary Creatinine	Next working day
Urinary Protein	Next working day
Urine Microalbumin	Next working day
Valproate^	2-3 working days
Vitamin D (25-OH D2 and D3) — clinical indications required	Next working day
HAEMATOLOGY	
Blood Film	3 working days from FBC result
Coagulation Screen (PT & INR only)	Next working day (same-day if urgent)
ESR	Next working day
FBC with WBC Differential	Next working day
Ferritin	Next working day
G6PD^	4-5 working days
Haemoglobin Electrophoresis^ (Sickle Cell Screen)	4-5 working days
Infectious Mononucleosis Screen (Monospot)	Next working day
INR (Warfarin)	Next working day (same-day if urgent)
PT (Prothrombin Time)	Next working day
Vitamin B12/Folate (Fasting Sample)	Next working day
MICROBIOLOGY	
Chlamydia trachomatis (CT) and Neisseria gonorrhoeae (GC)	Next working day
Clostridioides difficile (C. diff)^	1-3 working days
CPE Screen	1-3 working days
Microscopy, Culture and Sensitivity: Urine – MSU/CSU	1-3 working days
Culture & Sensitivity - Swab	2-3 working days
Fungal Culture^	3-7 working days
H. Pylori Antigen (stool)^	3-5 working days
Hepatitis A IgG & IgM^	2-4 working days
Hepatitis B Infection status (HBsAg, anti-HBc)	Next working day
Hepatitis B surface Antibody (Post vaccination)	Next working day
Hepatitis B surface Antigen (HBsAg)	Next working day
Hepatitis C Antibody (anti-HCV core IgG)	Next working day
Hepatitis C PCR (HCV RNA — current infection)^	2-4 working days
Herpes Simplex Virus (HSV — Urine)^	5-6 working days
Herpes Simplex Virus (HSV PCR — Multisite Swab)^	5-6 working days
HIV Ag/Ab Combo Assay	Next working day
Individual Molecular screens (HSV PCR)^	2-5 working days
Individual serology screens (HIV, Hep B, Hep C, Hep A)	Next working day
Measles/Mumps/Rubella IgG Screen^	2-4 working days
MRSA Screen	1-3 working days
Mycobacterial Investigation (TB/TB Culture)^	Up to 8 weeks
Ova & Parasites (based on clinical details)^	4-6 working days
Rubella IgG Antibody	Next working day
Sputum for Routine Culture^	4-6 working days
STI Screen (Syphilis, HIV, HBsAg)	Next working day
Stool Investigation – Extended (full bacterial/viral/toxin panel)^	4-5 working days
Stool Investigation – Routine Gastro Panel (Salmonella, Campylobacter, Shigella, STE, Giardia, Cryptosporidium)	1-3 working days
Stool Investigation – Routine Viral Panel (Adenovirus 40/41, Astrovirus, Norovirus GI, Norovirus GII, Rotavirus A, Sapovirus (I, II, IV, V))	1-3 working days
Syphilis Serology Screen	Next working day
Varicella Zoster Virus (VZV) IgG (Immune status)^	2-4 working days
Viral Hepatitis B & C screen (HBsAg + anti-HCV)	Next working day
VRE Screen	1-3 working days
IMMUNOLOGY	
Celiac Profile (Tissue Transglutaminase antibody (TTG) /Anti-Gliadin TTG IgG/IgA)^	2-4 working days
Allergy Tests (max 3 per sample): Animal Disorders, House Dust Mite, Peanut, Mixed Grass Pollen^	2-4 working days
ANCA – Vasculitis Screen only^	2-4 working days
Anti-CCP^	2-4 working days
Anti-Parietal Cell Screen^	2-4 working days
Anti-TG (Anti-Thyroglobulin Antibody)	Next working day
Connective Tissue Disease (CTD) Screen (Anti-Nuclear Antibodies, ENA and dsDNA)^	3 working days
IgA (individual)^	3 working days
IgG (individual)^	3 working days

IgM (individual)^	3 working days
Immunoglobulin Profile (IgA, IgG, IgM)^	3 working days
IgG/A/M Protein Electrophoresis (SPEP)^	3-6 working days
Intrinsic Factor^	2-4 working days
Rheumatoid Factor	Next working day
Thyroid Microsomal Antibodies (TPO)	Next working day
^ Denotes these tests are referred to our Medical Laboratory Partner.	
* Please note that TAT may be extended if further testing or confirmatory testing is required.
